PROFESSIONAL SUMMARY

MIS and Operations professional with 1.5+ years of hands-on experience in inventory management, purchase coordination, stock analysis and MIS reporting. Skilled in Advanced Excel (Pivot Tables, XLOOKUP, SUMIFS, dashboards). Manages 100+ inventory items, prepares periodic stock and consumption reports, and supports purchasing and production planning through data-driven shortage analysis. Seeking an MIS Analyst role to apply reporting, reconciliation and data analysis skills.

CORE SKILLS

- **MIS Reporting:** Daily, weekly and monthly stock reports, consumption reports, shortage reports, dashboards, trend analysis
- **Advanced Excel:** VLOOKUP, XLOOKUP, Pivot Tables, IF, SUMIFS, COUNTIFS, Conditional Formatting, Charts, Data Validation
- **Data Analysis and Management:** Data cleaning, data validation, reconciliation, data entry, data visualization, process improvement
- **Inventory and Procurement:** Stock tracking, purchase tracking, shortage analysis, material reservation, FIFO, vendor coordination, quotations

PROFESSIONAL EXPERIENCE

Store & Purchase In-Charge | Dutta Press, Okhla, New Delhi | Mar 2025 – Present (1.5+ years)

- Manage and track 100+ inventory items, including inks and paper rolls, using Excel-based records and MIS reports.
- Prepare daily purchase, issue, stock and consumption reports using Pivot Tables, SUMIFS and XLOOKUP for management review.
- Analyze inventory and consumption data to identify material shortages and support purchasing and production planning decisions.
- Reconcile available stock against operational requirements and resolve stock discrepancies, reducing the risk of production delays.
- Coordinate with 10-12 suppliers for quotations, material availability, delivery schedules and timely procurement.
- Track paper-roll sizes, weights, usable stock and job-wise material reservations for production jobs.
- Apply FIFO practices and maintain records of damaged and expired materials to improve stock accuracy.
- Collaborate with production and other teams to ensure required materials are available on time.

SELECTED PROJECTS

- **Inventory MIS Dashboard (Excel):** Built an Excel dashboard using Pivot Tables, SUMIFS and charts to track purchases, issues, current stock, consumption and shortages in one view.
- **Stock Shortage Analysis:** Analyzed inventory and consumption data to flag material shortages early and support timely purchase decisions.
- **Reel Reservation Tracker:** Created a tracker for paper-roll size, weight, usable stock and job-wise reserved quantities to improve material planning.

EDUCATION

- **Bachelor of Commerce (B.Com)** | University of Delhi (DU SOL) | Pursuing, Expected 2028
- **Class XII (Commerce)** | CBSE Board | 2024
